## Our product highlights:

### WATER TRACK

The **Water Track** turns your garden, patio, or balcony into an experimental landscape. Inspired by the principle of a ball track, this water toy lets children discover water in a whole new way. Three tracks, two flexible basins—which can be filled with either water or sand—and various obstacles invite children to get creative, splash around, and design their own courses.

Children playfully explore physical concepts such as flow, speed, and gravity. Balls and small buckets with holes in the bottom complete the fun.

The sturdy construction ensures long-lasting fun – ideal for warm days.

The double-sided easel has a repaintable acrylic glass panel and an integrated roll of paper, offering endless possibilities for little artists. Practical storage spaces and paint cups ensure that everything is within easy reach, while a protective fabric cover shields the easel from the sun and light rain.

Whether chalk, markers, or paint—the outdoor board is an all-round talent for all seasons and guarantees sparkling eyes and proud parents.
